

Invitation: Government and Defence CISO Roundtable

Tuesday 2 April 2019, 17:30-21:30

The Beaumont (Lotos Room) - Mayfair, London

You are invited to attend an exclusive dinner roundtable discussion with fellow CISO and cybersecurity peers to discuss the emerging cyber operating environment. These discussions are helpful in bringing leaders from the security communities together on a localised level to benchmark current thinking and security priorities.

The objective of this event is to enable guests to compare current approaches that are effective; share information between organisations and build awareness of current and emerging practices on managing cyber vulnerabilities, incidents, and mitigations.

Conducted under The Chatham House Rule, discussions will be co-chaired by an industry CISO and a senior strategist from CyberArk. Mr Clive Room from Pulse Conferences will be your Master of Ceremonies. It is worth highlighting that there is no product or sales talk at this event, it is hosted by the independent voice of Pulse Conferences.

Please R.S.V.P. before Friday 22 March 2019 latest. Places are limited.

There is no cost to attend this dinner discussion. A letter of transparency that outlines cost per head can be provided by Pulse Conferences upon request.

Many thanks for considering this invitation and we hope to welcome you to the Pulse community.

We look forward to hearing from you to confirm your place.

Yours sincerely,

Team Pulse

with matching wines in
their private dining room

21:30-22:00 Coffee and guests depart

The Venue

The Beaumont is superbly located on a quiet garden square, close to the luxury shops, galleries and museums of Mayfair, St James's and the West End. Grand in style yet intimate and welcoming, its design is inspired by the great Art Deco hotels of the 1920s.
