Assurance,
Phoenix Group

Connecting minds, building bridges in cybersecurity

"Great speakers, great networking, intelligent discourse, Pulse CISO 360 Congress has it all!"

**Quentyn Taylor, Director of Information
Security EMEA, Canon Europe**

"Refreshing views of security topics for knowledge improvement!"

Pedro Cunha, CISO, Credibom

Key programme segments

1. Threats and opportunities in a VUCA world - cyber defence, privacy and trade offs
2. Digital strategy and innovation - CISO and CIO as enablers, security by design
3. Supply chain, operational resilience and security - risk, governance, the supply chain in crisis
4. Financial crime in eCommerce - building intelligence and offensive security
5. Privacy and data explosion - the 'new oil' of identities, culture and trust

SECURITY QUALITY CONTROL

"By far the best event for 2018 I have attended. I always makes an effort to attend CISO 360 as it is not just an event, it is a trusted community that comes together from around the world!"

Ali Zeb, Group CISO and Group DPO, MS Amlin

Dear Colleague,

From 19-21 June 2019, CISO leaders from around the world will unite to benchmark progress and challenges on cybersecurity priorities in the wonderful city of Rome for the **3rd Annual CISO 360 Congress**.

We invite you to join the 2019 programme, designed to facilitate game-changing discussion on the key challenges and priorities currently confronting CISOs, cyber threat intelligence practitioners and technology and business leaders. This is critical benchmarking on the emerging opportunities and risk horizon, role expectations and business technologies within the years to come.

- **2.5** action-packed days of inspiring keynotes, debates, practical case studies, deep-dive industry benchmarking.
- **45+** speakers from around the world, specifically chosen for the expertise they will bring to the table: deep insights into what good security looks like and what is the new expectation.
- **360** perspective offers a journey beyond the security realm, giving CISOs exposure to non-security leaders - including innovators, investors, board directors.

Team Pulse knows that who you meet is just as important as what you learn. With this in mind, the dedicated networking schedule - for speakers, delegates and sponsors alike - is an integral part of the whole CISO 360 experience! Receptions, dinners, cultural activities, breakfasts, breaks, prize draw and lunches, will enable you to network with peers and industry luminaries. Attend and put yourself at the heart of discussions as someone who makes the world's cybersecurity happen!

Five main themes - Rome 2019! Connecting minds, building bridges in cybersecurity

CISOs today are uniquely positioned to ensure that security is embedded as technologies such as blockchain, artificial intelligence, IoT, data analytics and hyper-convergence offer new ways for doing business. The mission is clear: transformation and steerage of the enterprise into the next era of digital business. To advance, building bridges in the cybersecurity field is more important than ever - new partnerships and connections are vital - internally, within supply chains and with customers.

- 1. Threats and opportunities in a VUCA world** - cyber defence and emerging technologies, privacy and trade offs!
- 2. Digital strategy and innovation** - CISO and CIO as enablers of business innovation - AI/ML; Cloud; Data Analytics; IoT; Mobile; Blockchain...
- 3. Supply chain, operational resilience and security** - risk and governance, the supply chain in crisis.
- 4. Financial crime and eCommerce** - prevention vs remediation (predict, prevent, detect, respond); building intelligence and offensive security programmes.
- 5. Privacy and data explosion - the new oil** - identities, culture and trust Leverage opportunities in cybersecurity; Security by design; Biometrics.

Why CISO 360?

- **45+ speakers** - truly international, multi-faceted panel
- **Natural integration** - CISOs, supply chain and innovators - we are part of the same solution!
- **Immersive agenda** - debates think tanks, roundtables
- **Trust-based community** - inspiring environment, held entirely under the Chatham House Rule
- **Integral CISO 360 networking experience** - enduring connections are guaranteed or your money back!
