“By far the best event for 2018 I have attended. I always makes an effort to attend CISO 360 as it is not just an event, it is a trusted community that comes together from around the world!”

Ali Zeb, Group CISO and Group DPO, MS Amlin

Dear Colleague,

From 19-21 June 2019, CISO leaders from around the world will unite in this **trusted space to benchmark progress and challenges on cybersecurity priorities** in the wonderful city of Rome for the 3rd CISO 360 Congress. This event follows recent successes in Barcelona, Dubai, Lisbon, Abu Dhabi and Barcelona.

The programme is held strictly under The Chatham House Rule and is designed to enhance interaction and facilitate discussion around the key challenges and critical topics confronting CISOs and leaders in technology and business. CISOs and senior executives share openly in this closed-door environment to benchmark CISO to CISO on the emerging opportunities and risk horizon, role expectations and business technologies within the years to come, as well as to learn from perspectives beyond the security spheres.

- **2.5** action-packed days, attendees will be presented with a range of keynote addresses, topical debates, practical use corporate case studies, deep-dive industry focuses, think tanks on emerging priority areas, accumulating in the CISO 360 Roundtable.
- **45+** speakers from around the world, specifically chosen for the differences they will bring to the table, with a brief to offer deep insights into what good security looks like, what is the new expectation.
- **360** perspective for CISOs – a journey beyond security to expose the audience to the views of business leaders, innovators and investors! Be privy to CISO to CISO benchmarking AND mind-changing non-security perspectives!
- **Ratio** of trusted partners- we are inviting a limited number of reputable providers to the security industry, who have agreed not to talk product and who we know will add genuine value to the discussions in Rome. Everyone is integrated, numbers are closely ratioed to maintain the balance. After all, we are all part of the same problem and solution!
- **7** networking events! Team Pulse knows that who you meet is just as important as what you learn. With this in mind, the dedicated networking schedule - for speakers, delegates and sponsors alike - is an integral part of the whole CISO 360 experience! Attend and put yourself at the heart of discussions as someone who makes the world's cybersecurity happen!

Connecting minds and building trust and resilience in cybersecurity

6 main themes for 2019

CISOs today are uniquely positioned to ensure that security is embedded as technologies such as blockchain, artificial intelligence, IoT, data analytics and hyper-convergence offer new ways for doing business. The mission is clear: transformation and steering of the enterprise into the next era of digital business. To advance, building bridges in the cybersecurity field is more important than ever- new partnerships and connections are vital- internally, within supply chains and with customers.

- 1. Cyber defence, privacy and trade-offs** - geopolitical, economic and crime threats in a VUCA world
- 2. Digital innovation and security by resilience** - CISO and CIO as enablers of business innovation
- 3. Cybercrime, intelligence and response strategy** – prevention; remediation; offensive security; intelligence
- 4. Security culture, privacy and data explosion** – identities, culture and trust
- 5. Supply chain risk, operational resilience and security** - risk and governance; the supply chain in crisis
- 6. Talk to the Board, investment and IP leverage** - opportunities in cybersecurity for business value

6 reasons why CISO 360 is different from other security events?

- 1. Trust-based community and an open sharing environment**, - held entirely under the Chatham House Rule
- 2. 45+ speakers** - truly international, multi-faceted panel, with a focus on CISO to CISO benchmarking as well as bringing in new inspiring ways of thinking from non security perspectives!
- 3. Authentic integration between inhouse security, supply chain and technology innovators** - we are part of the same jigsaw!
- 4. Immersive agenda** - debates, think tanks, roundtables, by sector discussions, scenario planning, live metrics...
- 5. Integral CISO 360 networking experience** - enduring connections are guaranteed or your money back!
- 6. A fresh R&D and investment focus** - Views from technology innovators and investors.

"I would like to say thank Pulse for your effort, diligence, professionalism, patience and results - Pulse has been a great addition to our programme."

Tim Watson, Director of Marketing, EMEA & APAC

Skybox Security

"2.5 days to mix with delegates allows both parties to determine whether any business is to be done and to develop personal relationships. We generated and qualified many leads which stand a good chance of leading to business. What went well:

- understanding what customers want: a product of spending time with them
- quality of delegates: as good as any event that I have attended, but the key difference was the amount of time spent listening to them and the opportunity to socialise.
- quality of support from you: very happy with this. Thanks for ironing out any wrinkles."

Paul Brucciani, Head of Commercial Business Development,

Garrison

Venue and Accommodation

Radisson Blu es. Hotel, Rome
Via Filippo Turati, 171, 00185 Roma RM, Italy
