

# CISO 360 Congress is going ahead planned and permitted your safety as our top priority

## 7-8 July 2021, Oakley Court / Hybrid

We are pleased to confirm that the 5<sup>th</sup> CISO 360 Congress is going ahead as planned and permitted under the “50% capacity, fewer 1,000 people” rule for business events.

We fully respect that in-person attendance is a personal decision. To help you make your choice, we would like to provide reassurances by letting you know some of the measures that we are taking around this event:

- We originally selected this venue with extensive outdoor grounds (as well as indoor areas), with safety in mind and we are delighted that much of the event will be hosted outside in the beautiful grounds of Oakley Court
- All interactive group discussion sessions will be hosted outside (think tanks, fishbowls, roundtable)
- Our main networking area, ‘Security Hub’ where coffee is served will be in a large open-sided marquee and on the grass in front of the marquee by the serene River Thames
- ‘Decentralisation’ measures from the congress room include: usage of screens and live-stream viewing available in the marquee area; numbers in this room are strictly limited to 60, tables of 6; ventilation and open windows at both ends of the room to maintain a constant flow of fresh air coming in; sanitisers provided
- Face coverings are used indoors throughout the venue only when people are in transit, not once seated (the same as a restaurant in this respect)
- ‘Chief Sanitiser’ hired to cleanse the AV equipment and stage areas as well as to cleanse Q&A microphones between each usage throughout the event
- On stage the Speakers will be distanced apart from one another and well-distanced from the audience
- All lunches are hosted outside on the Terrace at Oakley Court on tables on 6
- One-to-One meetings are hosted outside in a dedicated area on the lawn, with regular cleaning of furniture in between and hygiene measures are provided
- Reduced touch points in all areas. In the Sponsors/Networking area we have collated all branded give-aways into one CISO 360 Gift Bag to take-away; Touch free prize draw; Sponsors are encouraged to use digital assets/ QR codes for reports
- Attendees can drive to and park at the venue - no cost, plenty of space!
- Hosted as a covid-compliant event in line with UK government guidelines and hygiene measures
- Evening networking events with outdoor and inside spaces to include:
  - Tuesday 6 July - A small Welcome Drinks Reception (6pm-8pm) outside on the terrace at Oakley Court;
  - Wednesday 7 July - Main networking reception on boats (tables of 6) and dinner (tables of 6)-both outside and inside spaces
- For those who are unable to travel - Virtual delegates can view the live-stream (circa 3 hours per day) directly from Oakley Court and interact with speakers on the stage in real time to ask questions. There is also the opportunity to join ‘Birds of a Feather’ freestyle roundtable discussions with peers who share the same interests.

If you are currently registered as a virtual delegate, you are more than welcome to change this to attend in-person at any time. We very much view this as a ‘physical first and when possible’ event for attendees based in the host country.

We look forward to seeing you soon for what promises to be a wonderful, safely executed, well-ventilated and compliant event for in-person attendees, and a fascinating partial live-stream for those joining virtually!

All the best wishes and regards,
