About the Venue

1 Fullerton Square, Singapore 049178

<https://www.fullertonhotels.com/fullerton-hotel-singapore>

The **CISO 360 Dinner Roundtable - Effective Incident Response** will be hosted at The Fullerton Hotel Singapore in a private dining room.

The magnificent Fullerton Building is a grand neoclassical landmark built in 1928. Gazetted in December 2015 as a National Monument, it was once home to Singapore's General Post Office, the Exchange Room and Exchange Reference Library, and the prestigious Singapore Club. For nearly a century, it played a pivotal role in Singapore's rich history. Today, The Fullerton Hotel Singapore has been transformed into a stunning 400-room heritage hotel in Singapore.

Effective Incident Response – DON'T PANIC!

Most organisations have to manage the risks of having to deal with a major cyber incident every year. Low-level attacks and threats are there too, but it is the major incident that worries security leaders the most.

You are invited to join the **CISO 360 Dinner Roundtable: Effective Incident Response - DON'T PANIC**. Hosted by Pulse Conferences and kindly sponsored by **WithSecure**, the discussion will be co-steered by strategist and board member, Tony Smith, alongside a leading CISO practitioner - and of course by the roundtable guests themselves who are encouraged to participate in the conversation.

Fellow CISO peers will share views and look at top tips for effective incident management. This is the ideal opportunity for CISOs to benchmark their experiences of what works, what doesn't with other organisations in the heat of battle, what are the important steps to take, and how do we keep a clear thought process?

Tony Smith, a Board Member of WithSecure, will share stories and best practices that he is seeing and common pitfalls to avoid. Conducted under The Chatham House Rule, the discussions will be co-chaired by a leading CISO and Pulse will be your host for the evening.

Talking Points

- What works. what doesn't
- Across the PPDR security continuum, where is the investment really going and why?
- How effective are various layers of security at preventing attacks?
- Can you stop the attack before it stops you?
- What are the fundamentals of dealing with a breach and its impact?
- What role does cyber insurance play in terms of the way that many organisations think they are prepared?

If you can accept, kindly **register online** to confirm your place at the table. There is no cost to attend. Places around the table are limited and confirmations will be done on a 'first to confirm' basis.

Please note that unlike the other networking events that are taking place as part of the 2nd CISO 360 Asia & Oceania Conference, this dinner roundtable is limited in numbers and is on a 'by invitation' basis.

Many thanks for kindly considering this invitation. We hope that you can join fellow CISOs for what promises to be a evening of fascinating discussion, a top culinary experience and great company!

We look forward to hearing from you soonest.

Yours sincerely,
Team Pulse
