Cybersecurity Strategies to Build Trust and Resilience

Created and hosted by Pulse Conferences, the next **CISO 360 Americas WEST** will again bring together CISOs and international cybersecurity leaders from the Americas for truly immersive discussions. As today's CISOs move towards an uncertain future and unknown cyberspace, be privy to threat horizon updates and a toolkit focused agenda designed around CISO priorities.

A problem shared is a problem halved!

Compare and share how fellow CISOs are leading teams and driving their businesses forward, as well as to learn from technical tactics and visions for the future. Hear insights on the challenges we all face, with an attack surface being created through digital transformation, complex supply chains as well as insider threats. How we can build collective resilience and a culture of good cybersecurity governance to defend our organisations.

Hear journeys, predictions and game-changers that will span from geopolitics, supply chain, response and recovery, human security, culture, disinformation, threat horizon, mitigations and how might we tip the scales back in our favour.

Meet face to face with CISO peers from across the U.S. and from around the world to engage, learn and benchmark leadership strategies

Why CISO 360 Americas?

- Connect, innovate and leave inspired! Sit with peers who you know are largely facing similar risks and opportunities
- Benefit from a unique trusted community ambience. These are not large exhibitions or trade-shows, they are intimate, 80-100 thought-leaders
- Share ideas and approaches beyond your inner circle with new leading CISO/CSOs – a cross-industry, pan-State approach
- Make new professional friends at our dedicated evening networking reception!
- Engage in meaningful interaction with CISOs, innovators, investors for business and collaboration
