## CISO 360 Risk Vision Roundtable **MUNICH**

**How can we reduce cybersecurity risk effectively across the enterprise and in a measurable way?**

### About the Venue:

#### The Mandarin Oriental | Munich

Welcome Reception – Ory Bar. Meet up with fellow CISOs in a sophisticated setting. Located on the ground floor, Ory is a chic new cocktail bar serving avant-garde drinks in an uber-contemporary setting.

Conceptualised by gastronomic visionary Maximilian Gradl, Ory is operated by his company Barschaft B17. Ory's eye-catching dark green and gold interiors feature brass fixtures, wood panels, red velvet seating and large potted-plants, creating a welcoming atmosphere.

#### Amber Room – Private Dining

The Mandarin Oriental is a five-star hotel in the heart of the old town Munich, in a traditional 7-story building originally dating from 1875, offering an air of Old-World elegance. A luxury retreat with timeless appeal.

#### Address:

The Mandarin Oriental | Munich  
NEUTURMSTRASSE 1,  
80331 Munich, Germany

## Welcome to CISO 360 Risk Vision Roundtable Riyadh!

Welcome to CISO 360 Risk Vision – Munich, part of the global thought-leadership roundtable series sponsored by Qualys and hosted by Pulse Conferences.

Greater collaboration and sharing are vital to stay ahead of and to reduce risk in the fast-paced digital landscape. We invite you to take a seat at the table for peer-to-peer benchmarking, knowledge sharing and networking in an exclusive private fine-dining setting.

As CISOs, the challenge is real – we ask ourselves, is our organisation more secure today than it was yesterday? With the attack surface expanding, speed, volume, and consolidation are essential as we race against bad actors to fix vulnerabilities once detected. With a unified platform and a risk-based strategy we can show various stakeholders that security teams are doing a good job.

Co-led by **a fellow CISO and a strategist from Qualys** guests are encouraged to actively contribute to the discussion. Talking points include:

- How are we as CISOs communicating risk ‘at speed’ to the Board? Is there a solid understanding of cyber risk and how is this resonating with the Board?
- What approaches are we using to measure how we reduce cybersecurity risk effectively across the enterprise? What metric gets the best reaction when shared?
- How is risk managed at the time of an incident? Who owns the risk?
- How are we balancing basic security hygiene with the need to embrace innovation in automation to improve ROI?
- As a collective group, what are our predictions on what risk reduction will look like in the next 5-10 years?

Sponsored by Qualys, hosted by Pulse Conferences, we hope that you will participate in this discussion on how CISOs are building resilience with effective ways to measure risk in 2024 and beyond.

**We invite you to join peers in Munich for what promises to be a dynamic discussion, a top culinary experience and great company!**

Yours sincerely,  
Team Pulse
