Driving Resilience and Trust: Cybersecurity Value Creation Tactics and Strategies for CISOs

We are thrilled to unveil the programme for the 4th CISO 360 Americas Conference & Roundtable, the leading event for CISOs and leaders in cybersecurity. We cordially invite you to join CISOs and senior cybersecurity practitioners and luminaries from across the Americas and from around the world in the vibrant city of Las Vegas on 21 and 22 May 2024.

Created and hosted by Pulse Conferences, 4th CISO 360 Americas will bring together CISOs and senior cybersecurity leaders for a memorable feast of CISO hearts and minds in 2024.

We will hear what plans CISOs are making, **what drives them and where their journeys are heading as they benchmark strategies, tactics and tools**. CISOs will compare and share how they are **leading teams and visions for the future** during keynote lightning talks, case uses, panels, think tanks, fireside chats and in conversation during **breaks, lunch, and evening networking events**.

During one and a half days of interactive programme, we will experience unrivalled learning and engagement. The journeys, predictions and stories will span AI, IoT/OT, cloud, Quantum computing, cyber geopolitics, supply chain, detection, response and recovery, human security, culture, privacy, robotics.

Don't miss the CISO 360 Reception & Supper at The Wynn! Networking is an integral part of the CISO 360 experience.

Our Goals

- Inspirational - Connect, innovate and leave reinvigorated for positive action. Sit with peers who you know are largely facing a similar set of risks and opportunities as you. A safe and independent platform to encourage innovation and positive action.
- Benchmarking and learning - with cybersecurity, risk, resilience, investigations and intelligence professionals.
- Future Facing - Prepare the CISO and cybersecurity community through agendas that are forward-thinking, honest.
- Collaborative and Trusted Community - Engage in meaningful interactions with CISOs, innovators, investors and luminaries.

Key Themes for 2024

- Innovation and keeping pace: AI, Quantum, Crypto in cybersecurity - deployment stories, risks and updates
- Threat 360: Risk landscape, trends, patterns, predictions and mitigations
- Evolution 360: Purpose and mission of the CISO today and tomorrow
- Resilience 360: Holistic security, multi-disciplinary, cross-sector approach, buy/sell sides, Public-private

Reserve your spot today! We look forward to welcoming you.

DAY ONE: CISO 360 Americas Roundtable *Cyber Risk and CISO Roles*

Welcome to the CISO 360 Americas Roundtable, Las Vegas 2024. Candid discussions take centre stage, and priorities are driven by ***you the Participant!***

CISO 360 Americas Roundtable is the ultimate sound-boarding discussion for today's cybersecurity and digital risk leaders to share and compare successes and challenges. A natural conversation that aims to produce practical proven tactics and strategies that CISOs can adapt for usage right away to drive forward security strategy.

Hosted under The Chatham House Rule of non-attribution, we create a secure space where participants can freely share their perspectives, experiences, and expertise. What is said within the roundtable stays within the roundtable, fostering an environment of trust and openness.

Prior to the event, we actively seek your input to shape the topics and prioritise the most critical issues you want to address.

At the CISO 360 Americas Roundtable, we believe that the best discussions are those that arise from the collective wisdom of our diverse attendees.

Provisional Agenda - Shaped by You The Participant!

- 1 PM – 1.20 PM Welcome Coffee and Refreshments
- 1.20 PM – 1.30 PM Chairman's Introductions
- 1.30 PM – 2 PM **Insider Risk**
- 2.10 PM – 2.50 PM **Communicating Value of Cybersecurity - Cyber Risk Quantification**
- 2.50 PM – 3.30 PM **AI, Quantum, IoT - Navigating Risk**
- 3.30 PM – 3.45 PM Short Coffee Break
- 3.45 PM – 4.45 PM **Evolution CISO 360: From First 100 Days to Life After CISO. What opportunities do we have? What problems can we solve?**
- 4.45 PM – 5 PM Wrap Up and Take-Aways
- 5 PM - 7 PM **CISO 360 Americas Reception and Supper The Wynn's Lake of Dreams**
Kindly sponsored by:

Chairperson's Welcome
Nicholas Gerteisen, Sr. Director, Cybersecurity, Mark43 (U.S.)

9 AM

Joint Opening Keynote
Human and Artificial Intelligence: Social Engineering Now and Next

Social engineering is involved in most 'hacks', with phishing the number one threat to organizations. Dr Jessica Barker and FC explore the psychology, neuroscience and sociology of scams. Combining this with technological advances of recent years, this session uncovers how cyber criminals leverage AI to add speed, scale and sophistication to their attacks. Exploring the role of AI in cyber crime, this keynote uses demonstrations, case studies and research from the field to ask - how can we be prepared for this rapidly changing threat landscape?

Dr. Jessica Barker MBE, Co-Founder, Cygenta, Leader in the Human Side of Cyber Security (U.S.)
FC, Author of "How I rob banks" and Co-Founder, Cygenta. Former Head of Offensive Cyber Research, Raytheon, Ethical Hacker (U.S.)

9.30 AM

Opening Scene-Setter
Geopolitical Insights – The Return of Great Power Conflict and the End of Globalization

- Challenges of navigating the emerging confrontational, multi-polar world order
- Impact of increased nationalism on global operations, supply chains, and business continuity
- Imperative of proactive geopolitical risk management to support organizational resilience

Ned Farmer, Head of Global Intelligence & Security Programs, Transocean (U.S.)

10.00 AM

3.15 PM

Case Story
Building a Security Strategy for a Rapidly Growing SaaS Company

Over the past 2 years Reward Gateway has over doubled in size and produced 30% year on year financial growth. A security strategy to enable the business to grow at scale was required. Hear how this was achieved whilst not slowing down business:

- Understanding organisational context
- Choosing the right framework (CIS, ISO, NIST, SOC)
- Identifying gaps and using risk management to maximise results
- Building a strategy, roadmap and setting objectives

Nicholas Howard, Director Information Security, Reward Gateway (UK)

Testimonials

"The people are amazing. CISO 360 gathers the best of the best – the organisations that came here, the speakers are fantastic, the vendors that we can speak to about the products are great. The talks have been fantastic. The most interesting contact has been about management, case studies, third-party risk, and AI. The camaraderie that is achieved through the social networking events is fantastic. They go out of their way just to make us feel comfortable, especially in a new city as well I've never been to before, so massive thanks for that."

VP Information Security EMEA, Financial Services

"It's a really cool event, a lot of CISOs come and it's quite a community where they all do a lot of learning and a lot of conversations. As a start-up, CISO 360 is a great way to meet people and build relationships within the industry. As a start-up, we don't have the marketing budgets of big companies, so for us relationships are really important, we need to build trust with the CISOs, they need to trust us before using our products, and that was a really great way to come to an event like this, meet CISOs, teach them a bit about what we're doing and what we're trying to achieve with our mission and then from there hopefully get a few using the product. Gather feedback on our products has been really good for two reasons, firstly we've got a lot of constructive feedback on what we're doing, what we're trying to achieve, and actually new ways which we can achieve that, and secondly we've got a lot of people who are willing to try the product and actually join the trial and get using it. It's a very well organised event with really friendly people. It's always a great venue as well – they rotate it around different cities and it's always nice to come to a different part of the world and meet people in a setting that's not London."

CEO, Risk Ledger

"I've really enjoyed the conference, I've enjoyed meeting people, learning more about what's top of mind for CISOs and in the cybersecurity space. The sessions have all been great. There is a great CISO 360 community, it's very tightly knit – we talk to each other a lot, share a lot of experiences, and that's fantastic."

Chief Scientist and SVP of AI, Dataminr

"Great event, well organized by a professional team"
CISO, AI Ahli Group UAE

"A great congress, packed with valuable information and insight for senior cybersecurity directors."
Global Security Operations, 21st Century Fox

"Simply the best event for security practitioners. Real expertise and knowledge sharing"
Group CISO, Unipart Group

"As this was my first 360 event, I had no preconceptions. Therefore, I was more than pleasantly surprised as I experienced such a warm friendly, professional and fast-moving conference and networking event. I met so many old friends, new contacts, good people, possible suppliers, clients or contractors. A fabulous and valuable use of 3 days of my time!"
Head of Global Security, Brown Brothers Harriman

"Great programme, great organization and great attendance have made discussions useful and passionate. Listening testimonials, sharing experiences and ideas regarding good practises, discovering other industries or business! You have made my days!"
Infosec Security Officer, AIR LIQUIDE

"It's one of the best conferences for cybersecurity professionals. We really get to exchange information with other professors and peers in this industry, we build trust among us in this inclusive environment. We can exchange not only challenges, but celebrate the successes as well. We build not only trust and become friends, but also become part of the family. For CISOs it's one of the most important things. Everybody expects CISOs to be very technical, and we are, but I believe that being very good on the soft skills is vital as well, and building that network is one of the most important things because CISOs cannot work alone. It's almost impossible that you will know every single answer, so the networking is probably the most important thing in our field to pick up the phone, to say: "Hey, are you having the same challenge, how are you doing things around these problems or issues?" It really does help, and it's proven itself over and over again. I use the CISO 360 network and call people. Besides information sharing, besides the fact that we all have become friends and family here, I would say we also have great evening events, which is how we build a stronger connection. CISO 360 is the place to be. I recommend it to all of our professionals in cybersecurity."

CISO, European Investment Bank

"One of the few must-not-miss events for every CISO. Wonderful opportunity to learn new things, and have in-depth discussions on what really matters, with real practitioners and industry legends (still alive)."
CISO & DPO, 360 Treasury Systems AG, Germany

"Great venue, great speakers, well-chosen themes. Overall, one of the best cybersecurity conferences I ever attended."
CISO, DPO and Director of Internal Controls, Comissão do Mercado de Valores Mobiliários, Portugal
