I know that calling 75 [REDACTED] 7 or visiting 702 [REDACTED] Avenue would be a better way to contact you in case you don't take action. Don't try to hide from this. You've no idea what I'm capable of in Brooklyn.

I suggest you read this message carefully. Take a moment to chill, breathe, and analyze it thoroughly. We're talking about something serious here, and I don't play games. You don't know me however I know you very well and right now, you are wondering how, correct?

Well, you've been a bit careless lately, scrolling through those videos and clicking on links, stumbling upon some not-so-safe sites. I installed a Malware on a porn website & you accessed it to watch(you get my drift). While you were watching those videos, your smartphone started working as a RDP (Remote Device) which provided me total control over your device. I can peep at everything on your screen, flick on your cam and mic, and you wouldn't have a clue. Oh, and I've got access to all your emails, contacts, and social media accounts too.

Been keeping tabs on your pathetic life for a while now. It is just your misfortune that I got to know about your blunder. I gave in more time than I should have digging into your data. Extracted quite a bit of juicy info from your system. and I've seen it all. Yeah, Yeah, I've got footage of you doing filthy things in your room (nice setup, by the way). I then developed videos and screenshots where on one side of the screen, there's whatever garbage you were watching, and on the other half, it is someone jerking off. With simply a single click, I can send this video to all of your contacts.

I see you are getting anxious, but let's get real. Wholeheartedly, I am willing to wipe the slate clean, and let you get on with your regular life and wipe your slate clean. I will offer you two alternatives. First Choice is to disregard my e mail. Let me tell you what will happen if you pick this option. I will send your video to all your contacts. The video was straight fire, and I can't even fathom the humiliation you'll face when your colleagues, friends, and fam check it out. But hey, that's life, ain't it? Don't be playing the victim here.

Other wise choice is to pay me, and be confidential about it. We'll call it my "confidentiality fee". Now Lets discuss what happens if you choose this choice. Your filthy secret remains your secret. I'll wipe everything clean once you send payment. You will make the payment through Bitcoin only. I want you to know I'm aiming for a win-win here. My word is my bond.

**Transfer Amount:** \$2000

**BITCOIN ADDRESS:** 133[REDACTED]yCR

Once you pay up, you'll sleep like a baby. I keep my word.

**And of course:** You now have one day in order to sort this out and I will only accept Bitcoins (I've a unique pixel in this e mail, and right now I know that you've read through this email). My system will catch that Bitcoin payment and wipe out all the dirt I got on you. Don't even think about replying to this or negotiating, it's pointless. The email and wallet are custom-made for you, untraceable. If I notice that you've shared or discussed this email with anyone else, your garbage will instantly start getting sent to your contacts. And don't even think about turning off your phone or resetting it to factory settings. It's pointless. I don't make mistakes, Leah.

Nice locality btw
