### CSO 360 Americas: Protecting People, Profits, Property and Reputation.

#### Event Details:

InterContinental New York, Times Square | New York  
Tuesday 25 March 2025 (Stay on for CISO 360!)

#### Key Themes:

- Geopolitics - Terrorism updates the resurgence of ISIS, far right growth across Europe, Civil unrest hot spots
- Protecting people – Executive protection, Travel risk, Well-being
- Crisis Management – Business disruption, Climate risk
- Impact of new technologies: AI, Quantum.
- Supply Chain Security: Navigating risks in an interconnected world

### 5th CISO 360 Americas: Strengthening Cyber Resilience. Time to Redefine.

#### Event Details:

InterContinental New York, Times Square | New York  
25 March (PM) and 26 March 2025

#### Key Themes:

- AI + Quantum: Integrating the new frontiers in security. Resilient, future-ready tech environments
- Operational Resilience: First-hand experiences of compliance and thriving in complex landscapes
- Threat Intelligence + Fusion: Modernising SOCs
- CISO GRC Toolkit: Critical updates. What to work towards in 2025: Core Controls for 2025
- OT-IoT-Cyber: Leveraging and mitigating converging trends, challenges and opportunities
- Supply Chain Security: Navigating risks in an interconnected world

"I was delighted to attend my first CSO 360. I found it inspiring and motivating, offering fresh perspectives on security leadership. The Global Congress highlighted how security transcends traditional boundaries – whether protecting priceless artefacts or managing complex AI implementations. The question that resonated most was: 'How do you bring value to your organisation?' This provocation aligns perfectly with our mission at the Met, where we're transforming security culture through innovative approaches. The diversity of attendees and the quality of discussions makes this event unique. I've already recommended CSO 360 to other cultural institutions in New York City, as I don't think they can miss the next one."

Regina Lombardo, Chief Security Officer, Metropolitan Museum of Art

#### Panel: The Evolving Role of the CSO and Future Skills

How does the CSO add value now - and what is the importance of the link with the CISO. The risks are all interconnected. The context of the CSO's evolving role is that, given how dramatically the world has changed in recent years, the role of the CSO must have changed also - or else he is now behind the curve.....so how has the role changed and why?? CSOs, CISOs, Intelligence leaders explore how to stay ahead in a fast-changing industry and the evolving landscape of security careers.

- Do traditional models still apply in an increasingly complex environment?
- Sourcing and retaining top talent in an era dominated by AI and social platforms
- Predictions for new job titles and areas of growth
- How to appeal to and nurture younger people within the security workforce

#### An Integrated Approach to Security Leadership

Where are our critical resilience gaps? What is the best way for organisations to join up their defences across digital and physical spheres?

Part of both the CSO 360 Americas and CISO 360 Americas agendas, The Bridge is a unique cross-security roundtable designed to unite CSOs and CISOs and professionals across security disciplines. This multi-faceted session facilitates open dialogue and collaboration on critical security challenges at the convergence and intersection of physical and cyber security. Share insights, strategies, and best practices in an interactive setting, fostering stronger alignment between security disciplines: cyber, corporate, intelligence, threat management, travel security, engagement, defense, active threat management who are already breaking down silos!

Explore areas of critical challenge today where the physical security, cyber, intelligence, electronic warfare, IoT and product security converge.

- Shaped by CSO and CISO/ cybersecurity practitioners from CSO 360 Americas and 5th CISO 360 Americas
- Leave with practical takeaways on where to start shared by those who are already converging pathways & breaking silos.
- The experienced roundtable faculty will steer the group conversation in a format that mixes plenary with working groups - to steer the large group conversation. No slides.

#### Key themes:

- Global Political and Geopolitical Risks - Intelligence fusion and confluence of risks - Where are our critical resilience gaps? How can we prepare for future disruption?
- Mis and Disinformation - How can cross-security disciplines work together?
- AI, Quantum and Emerging Technologies – Future skills to stay ahead?
- AI-Driven Threats and Cybersecurity Complexities - The rise of artificial intelligence has introduced new challenges in the cybersecurity landscape, particularly for financial institutions. Key aspects include: Advanced Threat Detection, Ransomware Preparedness and Quantum Computing Threats.
- Cyber-Physical Threats in the US Supply Chain - Lessons learned from Colonial Pipeline, cross-security implications
- Well-being and Mental Health in Security

#### Convergence Spotlight & Moderator:

- Justin Crump, CEO, Sibylline

#### Roundtable Faculty Including:

- Col. Eduardo Jany, Chief Security Officer - SVP Global Safety and Security, News Corp
- Melissa Newberg, Global Head of Intelligence, Seerist
- Meredith Wilson, CEO, Founder, Emergent Risk International
