08:55 **Chair's Welcome and Opening Remarks**

09:00 **Spotlight:**

Winning the Boardroom: Helping Businesses Lead, Not Just Comply

- How to get off the naughty list: Proven strategies to regain regulators' confidence and avoid costly fines or oversight
- Building Boardroom influence: Practical steps to become a trusted advisor and align cybersecurity with business goals
- From compliance to leadership: Lessons on how to shift from simply "meeting standards" to setting them, becoming the example others follow
- Measuring effective security outcomes at the Board

Darren Argyle, Former Group Chief Information Security Risk Officer | Advisor to the Board, **Standard Chartered Bank** (SINGAPORE)

09:30 **Fireside Chat:**

Domain Names as Attack Vectors: What Every CISO Needs to Know About Evolving Threats

Domain names are no longer just an IT concern—they're a frontline security risk. Learn how attackers exploit them, what's changing, and how CISOs can stay ahead of the curve.

With: **John Valenzuela**, Manager, Southeast Asia and Oceania, **CSC** (SINGAPORE).

Joined by: **Mark Leighton**, CISO, **Aurecon Australasia** (AUSTRALIA)

10:00 **Case Story & Q&A:**

False Alarm: When OneDrive Mimics Ransomware

Daniel Brunner, Global CISO, **medmix** (SWITZERLAND)

10:20 **Fireside Chat:**

How Are Cybersecurity Leaders Leveraging AI to Lead Themselves, Their Teams, and Their Organisations?

- What are use cases of AI for good?
- How can we differentiate between what is "pure AI" and "leveraged AI" without a roadmap?
- Is AI 'Secure by Design' a utopian vision? How do we shift left with developers of AI?
- How do we comprehend AI and where we are exponentially, what's real?

Moderator: Darren Argyle, Former Group Chief Information Security Risk Officer | Advisor to the Board, **Standard Chartered Bank** (SINGAPORE)

With: **Peter Bouhass**, Chief Information Security Officer, **Office of Digital Government** (AUSTRALIA); **Kanchana Devi**, Senior Cybersecurity, **University of Melbourne** (AUSTRALIA); **Dian Erlasari**, Senior Manager, Information Security, **Telstra** (AUSTRALIA); **Marlon P. Case Story & Q&A:

Behind the Shield – Perspectives from the Support System of CSO/CISO

Jade offers a rare operational vantage point into cybersecurity, forged through hands-on collaboration with CSOs and CISOs in cross-disciplinary environments. As part of the executive support system behind leaders, she has navigated complex stakeholder dynamics, brokered difficult conversations, and helped align cross-functional teams around high-stakes security initiatives. With focus on the 'People' element, Jade unpacks the ecosystem surrounding the CISO—executives, business partners and internal team—and how each influences the success of cyber programs. Using the Prosci ADKAR Model, she explores the five outcomes required for individuals to embrace change and drive impact. Gain tools to identify barrier points, build trust across and unlock the full potential of your team!

Jade Hon, CISO Office Lead, **The World's Largest Beauty Tech Company** (SINGAPORE)

Join us on **Level 14** at the skyline poolside cocktail bar for drinks, gourmet bites, music and panoramic city views! Continue the conversation with peers.

09:30 **Chairperson's Welcome Back**

09:40 **Bootcamp:**
GRC but make it D&D!
Come along and experience GRC the role playing game! Your organisation has given the literal call to adventure. There are cyber threats lurking at the gates, and your people need heroes. A team that can quickly make a security program, fend off red herrings, and defeat the monsters in cyberspace. In this session teams will be put to the challenge through three facilitated phases: **planning, crisis, clean-up**. The goal is to quickly construct a coherent security program, tackle a crisis with that security program, then discuss the good and the bad about how everything went. With a dungeons and dragons 'skin', and a veteran game master, this interactive session will be unlike anything you will have done before. You'll have your judgement, reasoning, arguments, and ability to make decisions all tested under time pressure. Like dungeons and dragons, if you can make a good enough argument to the game master, then you'll be allowed to do whatever it is you want to do. There'll be a lot of paper (no computers required gasp!), and a lot of fun to be had.
Remy Coll, Director and Principal Consultant, **Redacted Information Security (redacted.au)** (AUSTRALIA)

11:00 **Morning Coffee Break**

11:20 **Roundtable:**
CISOs Meet CSOs – Building a Converged Security Organisation
A multi-faceted approach by practitioners from intel and threat management. Hear proven tactics and strategies. CISOs and CSOs share challenges and successes working across security disciplines to bridge critical resilience gaps. Cyber-physical threats in the supply chain – Lessons learned from Colonial Pipeline. Intelligence fusion and the confluence of risks. Where are our critical resilience gaps? How can we prepare for future disruption?
Peter Bouhlas, Chief Information Security Officer, **Office of Digital Government** (AUSTRALIA)
Dr Tony Green, Managing Director, **ARGSAB Pacific Pty Ltd**. Former Senior Lecturer School of Risk Management and Safety Science, **UNSW**. Former Principal Research Fellow, School of Computing and Information Technology, **Wollongong University** (AUSTRALIA)
Dr Sally Leivesley, Managing Director, **Newrisk Limited** (UK)
Daniel Brunner, Global CISO, **medmix** (SWITZERLAND)

12:10 **Roundtable:**
Building a Cyber Workforce Resilience
CISOs explore how to stay ahead in a fast-changing industry and the evolving landscape of security careers. Do traditional models still apply in an increasingly complex environment? Sourcing and retaining top talent in an era dominated by AI and social platforms. Predictions for new job titles and areas of growth. How to appeal to and nurture younger people within the security workforce
Dian Erliasari, Senior Manager, Information Security, **Telstra** (AUSTRALIA)
Kanchana Devi, Senior Cybersecurity, **University of Melbourne** (AUSTRALIA)
Marlon P. Sorongon, Chief Information Security Officer, **Maybank** (PHILIPPINES)
Eugene Teo, Chief Security Advisor, ASEAN, **Microsoft** (SINGAPORE)
