CISO, Head of Innovation, The Global Fund

"I was delighted to attend my first CSO 360. I found it inspiring and motivating, offering fresh perspectives on security leadership. The quality of discussions makes this event unique. I've already recommended CSO 360 to other cultural institutions as I don't think they can miss the next one. It's an invaluable opportunity to connect with like-minded professionals while thinking differently about common challenges." **Chief Security Officer, Metropolitan Museum of Art**

"CSO 360 truly delivers global perspectives. Having attended twice now, I've found the congress invaluable for understanding how global companies navigate different regional contexts. The mix of strategic insights and practical knowledge makes this event stand out. It's rare to find a forum where security leaders can engage so openly!" **Security Manager, The Walt Disney Company**

"For those of us in the United Nations system, and beyond, CSO 360 offers refreshingly different perspectives. What struck me most was seeing how different industries approach similar problems – it's a win-win learning experience. The combination of subject matter experts and practical case studies makes this event particularly valuable for security leaders looking to broaden their horizons." **Deputy Director, World Food Programme**

"CSO 360 operates at exactly the right strategic level, making it perfect for security leaders navigating the transition to senior management. What sets CSO 360 apart is its focus on strategic thinking and future challenges. There's a real opportunity to develop the next generation of security leaders here, perhaps through dedicated sessions for emerging managers. The event encourages active participation and genuine peer engagement, making it invaluable for professional development. The Rome event was my first, and I was happy to get involved. I will be bringing more of my colleagues next time."

Head of Situation Intelligence Analysis, Siemens

The Pulse team is thrilled to announce early details for this security leadership extravaganza to be hosted at Grosvenor House in Dubai this November. A "must-attend" event for security leadership teams to develop integrated strategies rather than siloed approaches, while respecting the distinct needs and expertise areas of each role (CISO + CSO), driving the unified goal of organisational resilience in an increasingly complex threat landscape.

5 Key Differentiators:

1. Convergence Focus: Addresses the reality of integrated threats
2. Established + Emerging: Leverages CISO brand strength while launching CSO
3. Regional Expertise: Middle East-specific context and speakers
4. Practical Integration: Actionable frameworks for unified security operations
5. Peer Learning: Both vertical (role-specific) and horizontal (cross-functional) insights
