Welcome to the 9th CSO 360 Global Congress

Protecting People, Profits, Assets, and Reputation: **Keeping Pace, Raising the Resilience Bar, Enabling Business Innovation**

Dear Colleague,

We are delighted to invite you to the **9th CSO 360 Global Congress**, the flagship gathering for leaders in corporate security, resilience, and investigations - taking place at the **Fairmont Golden in Prague, 3-5 December 2025**.

As global risks evolve across geopolitics, technology, and business, the CSO 360 community will once again come together from around the world to exchange insights, share lessons, and strengthen collective resilience. Through open dialogue and real-world case studies, we will explore topics from geopolitics, civil unrest, K&R and supply chain security to crisis response, leadership, human factors, AI, disinformation, and climate risk.

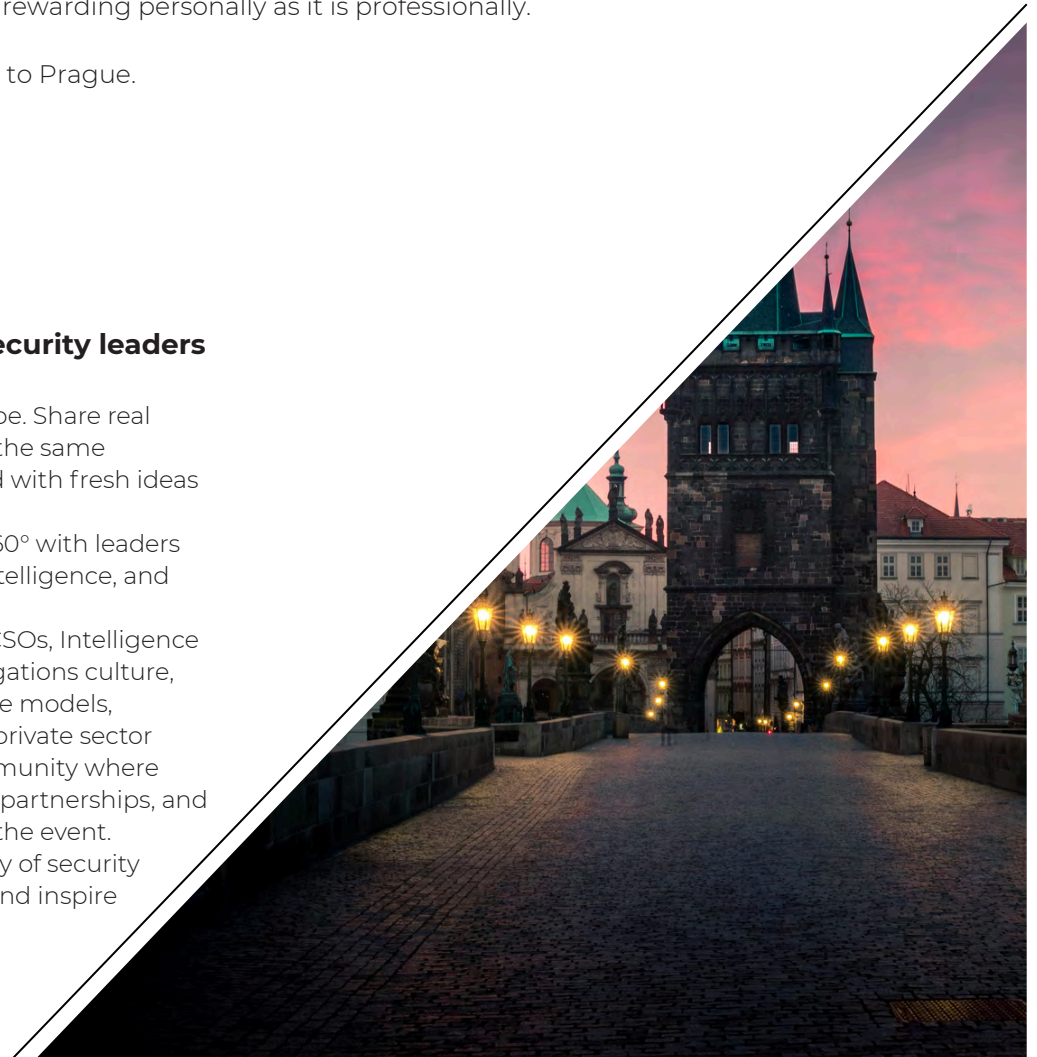

The conversations continue well beyond the sessions over evening receptions, shared dinners, and cultural experiences that make CSO 360 as rewarding personally as it is professionally.

We look forward to welcoming you to Prague.

The CSO 360 Team
Pulse Conferences

CSO 360 Global: **A trusted journey for global security leaders**

- **Inspire** – Reconnect with your tribe. Share real experiences with peers who face the same challenges — and leave energised with fresh ideas and renewed purpose.
- **Bridge** – Benchmark and learn 360° with leaders from across security, resilience, intelligence, and the wider CxO landscape.
- **Prepare** – Key lessons for global CSOs, Intelligence integration, governance & investigations culture, rapid communications & resilience models, collaboration between state and private sector
- **Collaborate** – Join a trusted community where open dialogue sparks innovation, partnerships, and friendships that last well beyond the event.
- **Belong** – Be part of a global family of security leaders who support, challenge, and inspire one another year after year.

Finding common ground

"Global Congress revealed how, despite our different sectors, we share many common security challenges. The format encourages open dialogue and knowledge-sharing in a remarkably constructive atmosphere. What struck me most was seeing how different industries approach similar problems - it's a win-win learning experience. The combination of subject matter experts and practical case studies makes this event particularly valuable for security leaders looking to broaden their horizons."

Deputy Director, World Food Programme (Italy)

"I loved my first CSO 360. I followed the 2022 edition in Istanbul on LinkedIn and saw very positive comments from the community. The mixture is right. You've got security practitioners and outside providers. Sometimes, with Germans, we do get focused on facts and data. But having the British influence and a bit more light-hearted approach makes it a worthwhile conference here. I lived in Berlin for nearly ten years and had never had the opportunity to eat in the Reichstag before - what a treat."

Head of Business Resilience, Siemens Healthineers (Germany)

"As this was my first CSO 360 event, I had no preconceptions. Therefore, I was more than pleasantly surprised as I experienced such a warm friendly, professional and fast moving educational conference and networking event. I met so many old friends, new contacts, good people, possible suppliers, clients or contractors.. A fabulous and valuable use of 3 days!"

Head of Global Security, Brown Brothers Harriman (UK)

"I was delighted to attend my first CSO 360. I found it inspiring and motivating, offering fresh perspectives on security leadership. It highlighted how security transcends traditional boundaries - whether protecting priceless artefacts or managing complex AI implementations. The question that resonated most was: 'How do you bring value to your organisation?' This provocation aligns perfectly with our mission at the Met, where we're transforming security culture through innovative approaches. The diversity of attendees and the quality of discussions makes this event unique. I've already recommended CSO 360 to other cultural institutions in New York City, as I don't think they can miss the next one. It's an invaluable opportunity to connect with like-minded professionals while thinking differently about common challenges."
