📍 {10-11} Carlton House Terrace and Gardens – Westminster – London

CISO 360 Think Tank: Cyber Risk Quantification

Complimentary Guest Invitation

Why Attend:

- Hear directly from peers during a CISO-led Fireside Chat on how cyber risk quantification is landing at board level
- Benchmark your approach against other senior security leaders facing similar challenges across sectors
- Translate cyber risk into decision-grade insight that influences investment, trade-offs, and risk acceptance
- Engage in trusted, closed-door discussion under Chatham House Rule, enabling candid and practical exchange
- Build meaningful peer relationships through curated networking, afternoon tea, and an end-of-day reception!

Discussion Topics:

- How are CISOs measuring, prioritising, and communicating what matters most?
- What makes CRQ defensible in the CISO 360 board context?
- How are we using CRQ to balance innovation, trust and resilience?.

Practicalities

- **Chatham House Rule applies.** Discussions are confidential and non-attributed, creating the space for honest exchange, challenge, and insight among peers.
- This invitation-only Think Tank is **complimentary for CISOs and senior cybersecurity practitioners** and intentionally limited to ensure meaningful, high-value discussion.
- Seating is strictly limited, with places **allocated on a first-to-confirm basis.**
