Welcome to 2nd CISO 360 UK

Peer benchmarking on the cyber risks and opportunities facing global businesses in 2026 & beyond. **How cyber resilient are we?**

Dear CISOs, Cybersecurity Practitioners and Luminaries,

This spring, the UK's CISO community gathers north of the border!

A national CISO forum beyond the London bubble, the Pulse team is excited to announce the **2nd CISO 360 UK & Ireland (28–29 April 2026, Sheraton Grand Hotel & Spa in Edinburgh)**, bringing together CISOs and senior security leaders - from Scotland, Manchester, Leeds to London and from Yorkshire to the Midlands, Wales and Ireland - for two days of peer-led discussion and real-world insight into what is working and what isn't!

The national meeting point for CISOs this Spring, engage with fellow CISOs and luminaries through case stories, fireside chats, table discussions, and 'Pulse Checks' on where we are now - convened under The Chatham House Rule.

The focus is firmly on readiness, governance, and business impact. The goal is simple: create space for security leaders to step back from operational pressures, compare approaches with peers, and explore how the role of the CISO is evolving as technology, geopolitics, and business expectations shift.

Venue: **Sheraton Grand Hotel & Spa, Edinburgh**

Dates: **28-29 April 2026**

Complimentary for CISOs and senior practitioners.

A tour of The Vaults, a cosy pub reception and dinner at the National Museum of Scotland are included on the evening of 28 April (see page 8 for details).

Expect:

- Closed-door discussions under The Chatham House Rule
- Real-world, practitioner-led insight grounded in lived experience
- Board-level themes (AI governance, Q-day preparations, supply chain, geopolitics, cyber resilience)
- CISO peer intelligence insights
- Experiential Edinburgh! Designed end to end for meaningful conversations
- Scenario-led sessions designed to translate intelligence risk into board-ready conversations
- Networking with peers in relaxed setting where the real conversations happen!

We look forward to welcoming you to this security leadership meeting of minds for CISOs from around the UK and Ireland!

Pulse Conferences

“One of the things I enjoy about a Pulse CISO 360 event is that you get a global view. You're bringing folks together from around the world to share and it helps us to understand the bigger implications of what we're doing and to develop best practices. Pulse gives us a bigger audience to see wider.”
Sounil Yu, Author of The Cyber Defense Matrix and Co-Founder and CTO, Knostic

Session types

Case Stories

Hear battle-tested strategies from peers who've been in the trenches.

Panels and Fireside Chats

Delegates are invited to shape the conversation, engaging, two-way, organic discussions. No rehearsed pitches, just honest answers.

CISO 360 Roundtables and Playbooks

Tactical table discussions where you collaboratively solve challenges with peers before presenting back.

Spotlights

CxOs and corporate leaders outside the security sphere bring fresh perspectives.

CISO 360 Pulse Check

No slides, no panel, these rapid fire 5-minute reality checks are designed to expose the gaps between narratives and realities - to quickly surface what CISOs are **actually experiencing right now!**

Day One - Tuesday 28 April 2026 - Security and AI

Sessions are currently being added and timings are provisional.

12:30-12:55 Welcome Lunch and Arrivals

12:55 Chairperson's Opening

13:00 Case Story: Agentic Ransomware, An Evolving Threat
Gary Hayslip, CISO in Residence, Halcyon (USA)

13:20 Insights: Back to the Future: Security in the Age of AI
Michael Colao, CISO/CSO/ Chief Underwriter Luminary

13:45 Panel: 2026 and Beyond: Security as a Business Enabler

- How are CISOs embedding security as a business enabler, accelerating secure innovation, and protecting digital trust?
- What governance, assurance, and accountability models work when innovation moves faster than policy?
- How can CISOs support innovation at scale that is ethical, resilient and trusted by customers, regulators, and boards?
- What are key challenges across cyber, fraud, AI, data, and physical security?
- How are we keeping pace to stay ahead of AI, Quantum and emerging technologies?

With: **Gary Hayslip, CISO in Residence, Halcyon (USA)**

Paul Colnan, CISO & Director of Platform Engineering, NewDay

Paula Kershaw, Managing Director - Chief Controls Officer - Cyber & Resilience, Barclays

Nick Gertesian, CISO, eClinical Solutions (USA)

14:15 Case Story: The Agentic SOC: Evolutionary Leap or Lack of Visibility?
Danielle Sudai, Security Operations Manager, Deliveroo

14:35-14:45 Short Comfort Break

14:45 Spotlight: AI Vacuums
Jonathan Armstrong, Partner, Punter Southall

15:00 Panel: Reality vs Narrative. Governing AI Agents at Scale - Utility vs Security

Enterprises are under pressure to deploy AI agents quickly, often before fully understanding the risks they introduce. Explore how security leaders are enabling agents at scale while maintaining a responsible standard of care. What CISOs are experiencing now!

- What does effective governance for autonomous agents look like? How are we managing AI sprawl?
- How are we moving from "prompt and pray" to deterministic, provable controls?
- How is AI evolving the identity governance landscape?
- What policies are we using to enforce real-time observability?
- Wrap: What has actually changed vs what hasn't?

Moderator: Martyn Booth, Former CISO, dunnhumby

15:25 Fireside Chat: Developing AI and Personnel for the Future Enterprise

As AI reshapes organisations, security leaders must evolve both technology capability and people. This practical conversation explores how mentoring now goes both ways - with experienced leaders guiding strategy and governance, while younger professionals bring fresh perspectives on AI, technology and new ways of working. Who believes the CISO role will fundamentally change in the next five years?

Moderator: Prof. Dr. Robert Coles, Consultant, DSSmith plc

With: **Richard Holland, Field CISO, Quorum Cyber**

Owanate Bestman, Director, Bestman Solutions

Lee Morton, CISO, GBG plc.

15:45-23:00 Evening in Edinburgh Experience - Networking Activities

17:00-18:30: Haunted Vault Tour
19:00-23:00: Dinner at the National Museum of Scotland

Conference Day Two - Wednesday 29 April 2026 How Resilient Are We?

07:00-09:00 Optional Hike Up Arthur's Seat! Bond with Peers in the Wild!

09:15 **Coffee**

09:25 **Chairperson's Re-Opening**

09:30 **Keynote: Cyber Threat Landscape: How the Shifting Geopolitical Environment is Reshaping Cyber Risk and Commercial Decision-Making**
Gemma Ungoed-Thomas, Senior Fellow, King's College London. Recent Director for State Threats, Cyber and Technology in the UK Cabinet Office

09:50 **Keynote: The Resilience Imperative: Hybrid Threats**
Lady Olga Maitland, President, Defence and Security Forum

10:10 **Case Stories: Hidden Attack Surfaces – The Parts of Your Office That Others Cannot Reach**
Ken Munro, Founder and CEO, Pen Test Partners

10:30 **Spotlight: From Human to Hybrid: The Next Insider Threat Won't Be Human**
Findlay Whitelaw, Field CISO, Exabeam

10:45 **Panel: Stretched, Overwhelmed, or Coping: The Reality Behind Security Team Morale**
Security teams are facing expanding attack surfaces, growing regulatory pressure, and constant operational demands. CISOs will share practical experiences on managing workload, prioritising when resources are limited, and what changes in tooling, automation, processes or leadership support - have made the biggest difference to team sustainability.

- What does "stretched" or "coping" really look like inside security teams today?
- When capacity is limited, what work actually gets dropped?
- Are fragmented security tools part of the problem?
- Where has automation or AI genuinely reduced pressure?
- What does real leadership support for security teams look like?

Panellists: **Chris Wallis, Founder & CEO, Intruder and CISOs**

11:10-12:10 Morning Coffee Break and 1-2-1 Innovation Meetings

Connect with technology luminaries in our dynamic informative 'speed-meeting' setting to discover key technology market movers and shakers, in an efficient and engaging way for 5-minute voluntary door-openers. You'll be pre-matched based on your mutual interests. A unique opportunity to evaluate new tools and strategies, discuss real-world challenges.

12:10 **Case Story: Open Source, Open Risk: Securing Engineering Teams in the npm Era**

1. 2026 Sub-Nuclear Warfare Phase 2. Arctic Trade Geopolitics 3. Scotland's Maritime Security 4. Case Studies Energy Security On-shore/Off-Shore 5. Space Geopolitics and Mystery Objects 6. Simplifying Resilience Complexity 7. Drone and Missile Defences 8. Emerging Tactical Nuclear Weapons 9. AI and Brain Sciences
Dr Sally Leivesley, Newrisk Limited, Member of the Register of Security Engineers and Specialists

13:40-14:30 Lunch

Day Two - 29 April 2026 How Resilient Are We?

14:30 Panel: Know Your Adversary, Reducing Uncertainty. From Threat Intelligence to Offensive Security

From red teaming and adversary simulation to breach-and-attack testing and ransomware, this discussion explores what CISOs are learning when they actively challenge their own defences and how those insights are shaping stronger resilience strategies.

- Cyber Threat Intelligence -attacker motivations and trends
- Offensive security approaches that are working: red teaming, adversary simulation, breach-and-attack testing
- Sociological and behavioural drivers of attackers
- How CISOs can use threat intelligence to prioritise defences and reduce uncertainty

Panellists: [Cian Heasley, Principal Consultant, Acumen Cyber](#)

14:50 Panel: Banking Under Pressure and AI, Geopolitical Challenges

For Financial Services CISOs and threat intelligence managers, the conversation in 2026 has shifted into resilience of digital finance ecosystems where AI, payments infrastructure, regulation, and systemic risk intersect.

- How are we strengthening identity security?
- What practical changes are we making to incident response?
- Measuring and improving our cyber threat intelligence capability
- How are we improving visibility into vendor security?

With: [Paula Kershaw, Managing Director - Chief Controls Officer - Cyber & Resilience, Barclays](#); [James Kwaan, Senior Operations Threat Manager, LBG](#)

15:10 Case Story: Innovative Business Strategy Modelling to Prevent Healthcare Fraud and Abuse

[Dr. Abdullah A.I. Alnajem, Head of Cybersecurity, Saudi Enaya Cooperative Insurance Co. \(Saudi Arabia\)](#)

15:30 Panel: Accelerating Critical Infrastructure Cyber Defence and Resilience - Energy Focus

Scotland sits at the heart of Europe's energy resilience through the North Sea ecosystem. What does cyber resilience mean in your operational environment - offshore platforms, grid infrastructure, engineering networks or industrial control systems? How are they strengthening resilience across critical infrastructure while enabling digital innovation across operational environments? OT/ICS security and engineering alignment, Resilience planning, Third-party and supply-chain vulnerabilities, AI-driven threats.

Panellists including: [Jonny Herd, CISO, Zenobe and Resilience Leaders](#)

16:00-16:30 Afternoon Tea Break & Sponsors' Prize Draw

YOU'RE INVITED! JOIN MEMORABLE DEDICATED NETWORKING EVENTS

Complimentary - A Crucial Part of the CISO 360 UK Experience.

Drinks - Deacon Brodie's Tavern
435 Lawnmarket, Edinburgh, EH1 2NT
Tuesday 28 April - 16:00-17:00

Jekyll & Hyde Drinks at Deacon Brodie's Tavern *Security conversations on Edinburgh's historic Royal Mile.*

At the close of Day One, delegates are invited to continue the conversation in true Edinburgh style with an informal evening reception at Deacon Brodie's Tavern, located on the historic Royal Mile in the heart of the Old Town. Dating back to 1806, this atmospheric pub is named after the infamous William Brodie, a respected cabinet-maker and city councillor who led a remarkable double life — respectable by day, criminal by night. Brodie was hanged from the city's new gallows on Oct 1st 1788. Ironically he had designed the gallows that were to eventually seal his fate. His story famously inspired Robert Louis Stevenson in the creation of Strange Case of Dr Jekyll and Mr Hyde. Against this backdrop of Edinburgh folklore and candlelit charm, CISO 360 delegates will gather for drinks and conversation before the evening continues across the street with a visit to the city's legendary underground Vaults! A fitting setting to reflect on the day's discussions - and perhaps a reminder that things are not always what they seem.

Cultural Experience - A Walk in The Vaults
Starting point 300 Lawnmarket
Tuesday 28 April - 17:00-18:30

The Candlelit Vaults Walk

Step beneath the surface into The Vaults and hidden layers.

Beneath Edinburgh's cobbled streets, through an unmarked doorway on South Bridge, lies a hidden world carved in stone in 1788, a place of shadow economies, illicit trade, survival, and stories the city never wrote into its official record. Once home to taverns, workshops, distilleries, and later the city's forgotten people, these chambers have held secrets for over two centuries. We venture underneath Edinburgh's Royal Mile for terrifying ghost stories on this guided tour of the city's underground which includes the Edinburgh Vaults, stone circle vault, and a torture exhibition. It's a setting that reminds us: resilience is rarely built in comfort and that trust can be forged in unusual spaces!

Dinner - Rooftops National Museum of Scotland
Tuesday 28 April - 19:00-23:00

CISO 360 Dinner | National Museum of Scotland

Skyline Dinner with views towards Edinburgh Castle.

Emerging from the Vaults, the evening continues with the CISO 360 Dinner at the iconic National Museum of Scotland. These dinners are intentionally conversational, informal, and off-the-record reflecting the trusted spirit that defines the CISO 360 community. Set high above the city, the museum's rooftop space offers floor-to-ceiling windows and a stunning outlook across Edinburgh's Old Town, with unrivalled views towards Edinburgh Castle. It is the perfect setting for security leaders to continue discussions in a relaxed environment building relationships, and reflecting on the day's conversations while overlooking one of Europe's most historic cityscapes.

Optional Hike up Arthur's Seat!
Wednesday 29 April - 07:00-09:00

CISO 360 Hike Up Arthur's Seat!

A hill walk with peers in the heart of the city.

Arthur's Seat, an ancient volcano in Holyrood Park, Edinburgh, offers a popular 2-3 hour (approx. 4.75km) hike with panoramic city views. The summit (251m) requires a steep, rocky climb. Proper footwear is advised due to muddy/rocky paths, which are strenuous but rewarding.

Bond with peers in the wild and be back in time for breakfast and to refresh, all before the start of conference day two!
