Welcome to the **5th CISO 360 + 1st CSO Asia & Oceania**
Peer benchmarking on the risks and opportunities facing
global businesses in 2026 and beyond. How resilient are we?

Dear Colleague,

We are thrilled to return to wonderful Singapore this year for the **5th CISO + 1st CSO 360 Asia & Oceania**, convened on **11-12 May 2026**, at the iconic **Four Seasons Hotel Singapore**. It would be a privilege to host you.

We will bring together CISOs, Directors of Cybersecurity with Chief Corporate Security Directors, and senior leaders from across cybersecurity, geopolitical risk intelligence and investigations to examine the real risks and opportunities shaping global business in 2026 and beyond. The focus is firmly on an **readiness, governance and business impact**.

As geopolitical competition, technological advances, regional conflict, and economic fragmentation reshape how businesses operate, move goods, protect people, and sustain trust, CISOs and Chief Security Officers are tasked with enabling business continuity in increasingly challenging operating environments.

The highlights of the event will be the incredible dialogue shared by our speakers, partners and participants alike. We would like to extend a special thank you in advance to our esteemed speakers for dedicating their time and sharing such generous, thought-provoking insights - from governing AI at scale to supply chain risk, building resilience and redefining security leadership roles for the decades ahead.

In an increasingly complex cybersecurity landscape, the ability to step back, compare notes, and learn from one another is invaluable. We remain deeply committed to fostering these types of interactions and creating spaces where security leaders can continually collaborate.

Benchmark strategies and tactics with fellow CISOs, and Directors of Security - where the trust is, where operational realities are aired and shared.

All discussions take place under The Chatham House Rule.

- **Real-World relevance** - practical, non-political, and grounded in real operational decision-making
- **Peer-level, off-the-record, actionable takeaways** - A trusted global community of security leaders
- **Board Engagement:** Scenarios help CISOs and CSOs practice translating incidents into intelligence
- **CISO + CSO 360 Bridge** - Two conferences, one event. Distinct in focus yet intentionally connected
- **Innovation spotlight** - Hub and curated 1-2-1 meetings with technology luminaries.

We hope you can join us in Singapore!

Warm regards,
CISO + CSO 360 Team
Pulse Conferences

“One of the things I enjoy about a Pulse CISO 360 event is that you get a global view. You’re bringing folks together from around the world to share and it helps us to understand the bigger implications of what we’re doing and to develop best practices. Pulse gives us a bigger audience to see wider.”
Sounil Yu, Co-Founder and CTO, Knostic

Session types

◆ Case Stories

Hear battle-tested strategies from peers who've been in the trenches.

◆ Panels and Fireside Chats

Delegates are invited to shape the conversation, engaging, two-way, organic discussions. No rehearsed pitches, just honest answers.

◆ CISO + CSO 360 Roundtables

Tactical table discussions where you collaboratively solve challenges with peers.

◆ Spotlights

CXOs and corporate leaders outside the security sphere bring fresh perspectives.

◆ 360 Pulse Checks

No slides, no panel, these rapid fire 5-minute reality checks are designed to expose the gaps between narratives and realities - to quickly surface what security leaders are **actually experiencing right now**.

Holistic Resilience - CISO + CSO 360

- **CISO**-specific themes (cyber leadership)
- **CSO**-specific themes (corporate security, geopolitical risk and intelligence)
- **Joint** plenary themes (where cyber + physical + geopolitical risk intersect)

About the 5th CISO + 1st CSO 360 Asia & Oceania Conference

One collaborative security leadership community respecting distinct security disciplines.

CISO 360 and CSO 360 run together over the two days: distinct in focus yet intentionally connected. We encourage cross-pollination between cyber, corporate security, resilience, intelligence, and investigations while respecting the depth and craft of each discipline. This is a closed-door forum, held under The Chatham House Rule of non-attribution to enable a more open conversation, practical insight, and leadership clarity. Participants registering for CISO or CSO 360 gain access to all sessions.

- **5th CISO 360 Asia & Oceania** convenes security leaders from across the region to examine how AI, Agentic AI, quantum technologies, fintech and emerging innovations are reshaping the cyber threat landscape and redefining governance and CISO roles. Benchmark what works and what doesn't.
- **1st CSO 360 Asia & Oceania** explores how security leaderships roles are expanding beyond protection into strategic risk leadership and business enablement amidst the complex landscape. Benchmark approaches to intelligence-led security, resilience, executive protection and crisis leadership, while exploring the role of human agency in decision-making, ethics, AI leverages, board engagement and cross-enterprise collaboration.

Common Core Themes of CISO + CSO 360

- Accelerated technology: Technology acceleration, data, automation, and AI governance
- Volatile operating environments: Operating in the space between peace and war, systemic risk, geopolitics, hybrid threats, disinformation, and business impact
- Human Agency: Leadership, ethics, decision-making, board, collaboration, communication

Security Leadership Conference: CSO + CISO 360 Asia & Oceania

08:45 Arrivals and Coffee

09:15 Chairperson's Welcome

Alan Jenkins, Fractional CISO, The Cyber Security Navigator

09:20 Spotlight: Global Security Landscape

A high-level orientation for security leaders, mapping the fault lines, flashpoints, and forces reshaping the global threat environment as we move through 2026 and beyond.

Justin Crump, CEO, Sibylline (UK)

09:45 Spotlight: Iran: Another Forever War?

A closer look at Iran's position at the intersection of regional conflict, proxy networks, and nuclear ambiguity continues to generate instability with far-reaching consequences for global security. An authoritative examination of where things stand, where they are heading and implications.

Dr. James M Dorsey, Adjunct Senior Fellow RSIS | S. Rajaratnam School of International Studies and Author (Singapore)

10:10 Fireside Chat: APAC Strategic Outlook: Geopolitics as a Business Asset - and What Washington Is Thinking

Hear a direct Washington lens on current thinking: what the administration's strategic direction means in practice, where US commitment to the region stands, and how the most prepared organisations are beginning to treat geopolitical complexity not as a threat to be managed, but as a business asset to be leveraged across cyber and physical.

A conversation with: **Meredith Wilson, CEO, Emergent Risk International (USA)**

10:35 Power Panel: 2026 and Beyond - AI and Innovation at Scale

- How can we support innovation at pace that is ethical, resilient, and trusted by customers, regulators, and boards?
- Evolution of state-sponsored cyber activity. When does defence become offence - and who decides?
- AI in the wild - How adversaries are weaponising AI
- Quantum readiness: Preparing cryptographic systems for the next era of computing
- How do we unlock human agency in our fast-paced, tech and threat-infused world?
- Identity governance landscape - what has change, how are CISOs and CSOs navigating this?

Moderator: **Adjunct Professor Jason Lau, CISO, Crypto.com (Singapore/ Hong Kong)**

With: **Eugene Teo, Chief Security Officer ASEAN, Microsoft (Singapore)**

Christopher Chew, Technical Leader, Office of the CTO, Cisco (Singapore)

11:20-12:20 Morning Coffee Break + 1-2-1 Innovation Speed-Meetings

We invite you to meet with our Sponsor Luminaries in a dynamic 1-2-1 "speed-meeting" setting. These short 5-minute voluntary introductions are an opportunity to explore new tools, ask practical questions, and hear real-world deployment experiences. You will receive a meeting card upon registration with your pre-matched meetings. Please wait for your **Round number to be called** before moving between tables. The bell signals the end of each round. Thank you for taking part in what is an integral part of the CISO + CSO 360 experience. **Let "ROUND ONE" begin!**

Participants Select their Primary Focus

5th CISO 360 Asia & Oceania

Cybersecurity that Inspires: Balancing Innovation, Trust and Resilience
Chaired by: **Michael Colao, CISO/CSO/ Chief Underwriter Luminary**

1st CSO 360 Asia & Oceania

Corporate Security: Protecting People, Profits, Property, Reputation
Chaired by: **Dr. Sally Leivesley, Managing Director, Newrisk Limited & Visiting Professor, Imperial College, London**

12:20 Fireside Chat: Boardroom Discussions After High-Profile Cyber Attacks

A look past the headlines and dissect the true evolution of executive oversight. Have boards moved beyond reactive panic toward a sophisticated understanding of fiduciary liability and digital resilience when it comes to cyber?

With: **Ian Schenkel, VP of EMEA & APAC, Intel 471** and **Daniel Brunner, Group CISO, medmix group AG**

12:45 Case Story: Cybersecurity Strategy and Data Protection in the Public Sector

Asimina Basdani, CISO - Information Security Office, IDIKA - Ministry of Digital Governance and Health (Greece)

13:05 Case Story: Beyond CVSS: How Leaders Prioritise Vulnerability Risk

Data is scattered. Ownership is unclear. Priorities are not aligned. Organisations struggle to answer one simple question. Who is fixing this? And when that question is unanswered, risk remains. Hear how translating technical findings into business language provides leaders with a clearer understanding of organisational risk

Dian Erlasari, Cyber Security Leader (Australia)

12:20 Fireside Chat: Case Stories on Crises Tested - Managing Geopolitical Risk and Developing Readiness in a Fragmented World

Learnings from ongoing crises such as the Middle East and Russia-Ukraine, and how organisations can navigate the impact. Lived experiences and what we've learned from ongoing crises.

With: **Mark Wolsey, Senior Security Advisor, International SOS; Patrick Kane, Senior Director Security, Atlas Air (USA)** and **Gilad Wax, Group Security Director, CRH Plc. (UK)**

12:50 Case Story: Building AI-powered Intel Tools: Lessons Learnt

Integrating AI into the intelligence lifecycle-specifically for TPRM due diligence and continuous monitoring-is often sold as a "plug-and-play" solution. The reality is far messier. This session moves past the hype to share the hard-won lessons of building and deploying AI-driven agents in a high-stakes intel environment. Dive into the friction between automated collection and analytical tradecraft, the "intelligence gap" that occurs when context is lost to speed, and why the most critical part of an AI tool isn't the code, but the human-in-the-loop.

Tom Murphy, Intelligence & TPRM Lead, Google DeepMind (UK)

13:10 CSO Journey: What Does Success Look Like for a CSO?

Mark Wolsey, CEO, Convergent Risk. Senior Security Advisor, International SOS. Former Chief Security Officer for Smiths Group, Cadbury, Philip Morris International and CRH

16:05 Panel Integrated Security CISO + CSO: Operating Through Failure - When Cyber Becomes Business Disruption
 Cyber incidents no longer remain confined to IT. When systems are compromised, organisations must still communicate, coordinate, and make critical decisions under pressure. This interactive cross CISO + CSO panel explores what happens when cyber incidents escalate into operational and business crises, from "Day 1 of the outage" through to maintaining trusted communication, leadership decision-making, and operational continuity in compromised environments. Drawing on real-world experiences across sectors, panellists will discuss what has worked, what has failed, and what organisations are still underestimating.
