Welcome to the 10th CSO 360 Global Congress - Copenhagen 2026

Chief Security Officers, directors of security, resilience, geopolitical intelligence and risk from across Europe and beyond will convene in Copenhagen this December (2-4) under The Chatham House Rule to examine the realities shaping the global security horizon.

The Chief Security Officer role now sits at the intersection of innovation, trust, and business and national competitiveness. Resilience is now the ultimate business enabler. Our focus remains firmly on meaningful conversations, peer-to-peer insights, and the opportunity for senior security practitioners to step back from daily pressures and engage with others carrying similar responsibilities. Ten years on, the purpose of CSO 360 remains simple: to provide a trusted space for security leaders to learn from one another.

This is a recognition of security leadership and how far the profession has come.

To those who have been part of the CSO 360 journey from the beginning - you built this and we whole-heartedly thank you. To those joining for the first time - we welcome you.

We look forward to meeting you in wonderful Copenhagen for this once-in-a-decade edition!

Warm regards,
CSO 360 Team
Pulse Conferences
