Welcome to the 10th CISO 360 Global Congress Lisbon 2026

As the worlds of cyber, AI, data, and digital transformation converge, the Pulse team is honoured and delighted to bring you the 10th CISO 360 Global Congress to share experiences and knowledge on how organisations can continue to innovate while maintaining trust and resilience - **Innovation with Resilience** is our 2026 theme.

CISOs, senior cyber security practitioners and luminaries from across Europe and beyond will convene in Lisbon this June under The Chatham House Rule to examine these realities and impacts on the evolution of the CISO role which now sits at the intersection of innovation, trust, and competitiveness.

Our focus remains firmly on meaningful conversations, peer insights, and we provide the setting and the opportunity for CISOs and senior cybersecurity practitioners to step back from daily pressures to reflect with others carrying similar responsibilities. Ten years on, the purpose of CISO 360 remains simple: to provide a trusted space for security leaders to learn from one another.

Ten years of CISO 360 is a recognition of security leadership and how far the profession has come. To those who have been part of the CISO 360 journey from the beginning - you built this and we whole-heartedly thank you. To those joining for the first time - we welcome you.

We look forward to meeting you in Lisbon for this once-in-a-decade edition!

Warm regards,
CISO 360 Team

- **Peer-level, off-the-record, Actionable Takeaways:** A trusted global community of security leaders.
- **Board Engagement:** Practice translating technical incidents into board-level decision intelligence.
- **Resilience speakers embedded from our CSO 360 events** - We encourage cross-pollination between cyber, corporate security, resilience, intelligence while respecting the craft of each discipline.
- **Innovation hub** - Option to meet 1-2-1 with innovation luminaries.
- **Dedicated evening schedule of cultural receptions and dinners** - Showcasing the stunning setting.

“One of the things I enjoy about a Pulse CISO 360 event is that you get a **global view**. You’re bringing folks together from around the world to share and it helps us to understand the bigger implications of what we’re doing and to develop best practices. Pulse gives us a bigger audience to see wider.”

Session types

Case Stories

Hear battle-tested strategies from peers who've been in the trenches.

Panels and Fireside Chats

Delegates are invited to shape the conversation, engaging, two-way, organic discussions. No rehearsed pitches, just honest answers.

CISO 360 Roundtables - Birds of a Feather

Tactical table discussions where you collaboratively solve challenges with peers on priority topics.

Lightning Talks

10-minute impactful insights.

NEW! Benchmarking Group Pulse Checks

No slides, no panel, facilitators explore the gaps between narrative and realities to quickly surface what security leaders are actually experiencing right now.

NEW! Meet Your Mentor-Mentee. Be Both.

Everybody teaches. Everybody learns. Everybody has something worth sharing. Seniority is not the measure here, experience in a specific area is. Mentor - What's one lesson you wish somebody had taught you earlier? Mentee - What challenge are you wrestling with right now? We match. You have a conversation.

CISO 360 Roundtable

Protecting our organisations and CISO value as AI moves faster than any of us. Is this the most exciting time to be a CISO?

The CISO 360 Roundtable Faculty of 2026.

Moderator:

- **Raymond Stanton, Global CRO/CISO Content Guru & NED/Board Member**

Co-Facilitators:

- **Andrea Litherland, CISO, Domestic and General**
- **Indy Dhiman, Information Security Officer M&A, Humana**
- **Jorge Fernandes, CISO, DPO & Director of the Internal Control Office, Comissão do Mercado de Valores Mobiliários (CMVM)**
- **Will Harvey, Head of Cybersecurity (CISO), IAG Transform**
- **Martyn Booth, CISO, Recently dunnhumby**
- **Simon Riggs, CISO, OneAdvanced**

As the world moves faster than any one organisation can handle alone, our collective intelligence is going to be our secret weapon. What are CISOs learning before Quantum changes the rules again, and how are we treating AI as an opportunity for value, longevity, well-being?

As the ground shifts day by day - what we knew yesterday is already outdated. Yet most of the AI conversation on the security circuit stays defensive. Let's take the other view: AI as a professional opportunity, and a question every CISO is quietly asking - how do I pivot to protect my value and longevity in a field where knowledge expires this fast? AI as opportunity - the skills to lean into now. AI as a route to longevity, value, and escaping the glass ceiling- is the more human, peer-led take that also reinforces well-being. The skills that matter before quantum rewrites the rules.

Top 5 priority areas emerging to date (pre-input by partaking CISOs):

1. AI, Agentic AI & AI Governance
2. Governance, Risk & Regulatory Compliance
3. Cyber Threat Intel, Resilience & Incident Response
4. Third-Party & Supply Chain Risk or Identity & Zero Trust
5. Security Leadership

A Special Welcome

José Diogo, Head Concierge
Palácio Estoril

We are delighted that José Diogo Vieira, head concierge of the Hotel Palácio Estoril, will open the roundtable with a few words on his experience. José Diogo began working at the hotel in 1964, at the age of fourteen, and has served its guests ever since - among them the royal families, heads of state and public figures who have made Estoril their home since the war. He will share something of the hotel's remarkable history, including its wartime role as a refuge for agents of every allegiance and its lasting connection to Ian Fleming and the world of James Bond.

AGENDA IS SHAPED BY CISO PARTICIPANTS. A NATURAL GROUP CONVERSATION.

TIMINGS

- 13:30-14:15** Arrivals and Lunch on the Lawn
- 14:15-14:25** Welcome & Stories from the iconic Palácio Estoril

Thursday 25 June 2026 - CISO 360 Global Congress - Day One

08:30 Arrivals, Coffee, Refreshments

08:50 Chairperson's Opening
Alan Jenkins, The Cyber Navigator

09:00 **Spotlight: The Resilience Imperative: Hybrid Threats**
Lady Olga Maitland, President, Defence and Security Forum

09:15 **Panel: 2026 and Beyond - Security as a Business Enabler**
CISOs share how they are staying ahead of evolving threats, transforming security operations with AI, and enabling responsible AI adoption within their organisations.

- How are CISOs embedding security as a business enabler and protecting the digital trust that underpins brands?
- What governance, assurance, and accountability models work when innovation moves faster than policy?
- How can CISOs support innovation at scale that is ethical, resilient and trusted by customers, regulators, and boards?
- What are key challenges across cyber, fraud, AI, data, and physical security?
- How are we keeping pace to stay ahead of AI, Quantum and emerging technologies?

Moderator: Andrea Litherland, CISO, Domestic and General (UK)
Panellists: Nuno Teodoro, Global Cybersecurity Director, Hovione (Portugal); Toks Oladuti, Global CISO, Dentons (UK); Munawar Valiji, Group CISO, Close Brothers (UK); John White, Field CISO EMEA, Torq Technologies (UK)

09:55 **Case Story: What Story do your Metrics Tell; Does the Board Even Care?**
Alyssa Miller CISO, Epiq Global (USA)

10:15 **Case Story: Shadow AI: What you Need to Know**
Jorge Fernandes, CISO, DPO & Director of the Internal Control Office, Comissão do Mercado de Valores Mobiliários (CMVM) (Portugal)

10:35 **Morning Coffee Break + 360 Innovation 1-2-1 Speed-Meetings**
Meet our technology innovators in fast, 5-minute conversations out on the terrace. Pre-matched based on mutual interests, this is the ideal way to explore new tools, strategies, and real-world challenges in an efficient compact way. Meetings are of course optional, and we very much appreciate your meeting our enabling Sponsors.

12:10 **Panel: Cybersecurity and Geopolitics: What do Security Leaders and Boards Need to Know?**
From Chinese pre-positioning in critical infrastructure and Russian supply chain targeting to Iranian OT attacks and North Korean infiltration, organisations must understand who is targeting them, why, and how to respond. How can CISOs and business leaders operationalise geopolitical intelligence, strengthen crisis response, and brief boards effectively on nation-state risk as the lines between cybercrime, state interests and geopolitical disruption continue to blur? · How has the Russian cybercriminal ecosystem evolved? · How are ransomware groups adapting their tactics, targets and alliances? · What role does intelligence-sharing and resilience now play? · How to communicate geopolitical risk to boards? · What does preparedness look like?

Moderator: Ned Farmer, Geopolitical Risk | Intelligence | International Affairs | Global Security (USA)
Panellists: Archie Millett, MA in the King's College London War Studies Department and Lead Analyst on Russian Hybrid Warfare, Defence and Security Forum (UK); Tim Miller, Global CTO and Chief Cybersecurity Strategist, Dataminr (USA); Daniel Norman, Regional Director EMEA, ISF (UK); Will Harvey, Head of Cybersecurity (CISO), IAG Transform (UK)

12:40 **Lightning Talk: Copilot: From Friend to Foe**
Martin Riley, Chief Technology Officer and Board Director, Bridewell (UK)

13:00 Group Photo & Lunch on the Lawn

14:20 **Case Story: SBOM as Part of an Integrated Cyber Defense for the Digital Platform**
Stefan Weber, COO Digital Platform (Vertriebsplattform), Deutsche Bahn Fernverkehr AG (Germany)

14:40 **Case Story: Third-Party Realities**
Phillip Davies, Chief Information Security Officer for Europe, India and the Emerging Markets (UK)
Javier Checa, CISO - Continental Europe, Equifax Iberia (Spain)

15:10 **Benchmarking Group Pulse Check: What does a "Mythos-ready" Security Programme look like? What Has Changed? What are CISOs Experiencing Now?**
AI is becoming faster at validating, prioritising and acting on weaknesses, turning signal into something operational at unprecedented speed. We look at where the real risk now sits and compare how CISOs are governing autonomous and agent-driven environments without slowing innovation and business adoption.

- How is AI-driven vulnerability discovery reshaping the defender timeline? · How can we build a "Mythos-ready" security programme? · What is the new operating model of vulnerability management? · What are the minimum actions required now? · How are we shifting from a patching mindset to a containment mindset · What has fundamentally changed - and what hasn't? · What should the CISO community be demanding from AI developers, from governments, and from their own boards that it is not yet demanding?

Contributors: Alyssa Miller, CISO, Epiq Global (USA); Michael Colao, CISO / CSO and Chief Underwriter - Direct and Indirect Risks (UK); Jorge Pinto, Information Security Professional, Siemens (Portugal); Ivan Milenkovic, VP Cyber Technology Risk, Qualys; Dr. Eduardo Solana, Senior Lecturer of Cryptography and Security, University of Geneva (Switzerland); Tunde Benjamin, Head of Cyber, Smollan (UK); Dr. Viktor Polic, CISO Office, ILO United Nations (Switzerland); Indy Dhiman, Information Security Officer M&A, Humana (USA)

CISO 360 Group Table Discussions: Resilience Beyond the Perimeter

As regulation, geopolitics and AI redraw the boundaries of resilience, our tables ask similar questions from different angles: how do you secure what now sits beyond the perimeter?
Pick the table conversation that matters most to you!

Table 1 - Future of Cyber Resilience: Balancing Security, Privacy, and Operational Continuity

As European organisations navigate increasing regulatory pressure and escalating threats, security leaders must balance cybersecurity, privacy obligations, and business continuity requirements simultaneously. Explore with peers integrated approaches to resilience that connect security operations, third-party oversight, and governance strategies.

Moderated by: John Chisum, Vice President, Solutions Consulting, Mastercard Cybersecurity

Table 2 - Digital Assets: The Big Security Risk for 2026 and Beyond

Domain names are no longer just an IT concern, they're a frontline security risk. We've come up with four questions around domain and DNS security, AI as a cybersecurity asset/concern, and regulatory frameworks (NIS2, DORA). Here's a blind spot you're underrating discussion, zeroing in on domains/ DNS as a specific frontline risk
Moderated by: Mark Flegg, Senior Director of Technology, CSC

Table 3 - Cyber Risk as a Business Language

The CISO seat at the board table is only as strong as the ability to quantify risk in financial terms. Most teams still rely on severity scores and gut feel. Exploring how organisations are moving toward continuous, measurable risk quantification and what good looks like and would give attendees something immediately actionable to take home.

Moderated by: Ivan Milenkovic, VP Cyber Technology Risk, Qualys

16:05

Afternoon Tea Break

16:15

Panel: Cross-Sector Cyber Resilience Design & Testing Coordinated Crisis Response

While many organisations are strengthening cloud security and AI governance, far fewer cyber practitioners from industry, government and academia are addressing the systemic questions: • How would cities, states, critical infrastructure operators, and private enterprises coordinate in the event of simultaneous cyber-induced disruptions, such as extended power outages, supply chain interruptions, or water shortages? • Against a GRC backdrop of DORA, NIS2, and increasing geopolitical risk, Who leads? • Who communicates? • Who owns recovery orchestration?

Moderator: Sybil VR Kleinmichel, Managing Director, Sycheck Systems (Germany)

Panellists: Dennis Pokupek, CSO/CISO, Creditplus Bank AG (Germany); Stefan Weber, COO Digital Platform (Vertriebsplattform), Deutsche Bahn Fernverkehr AG (Germany); Maril Vernon, Field CISO, Anecdotes (USA); Air Commodore (Rtd). Peter Drissell, Director Aviation Security, CAA (UK)

16:45

Fireside Chat: Holding the Line: Workload, Morale and the Limits of Security Teams

Expanding attack surfaces, growing regulatory pressure, constant operational demands - and teams that are expected to absorb it all. CISOs share honest perspectives on managing workload and prioritising under constraint, exploring what has genuinely made a difference: in tooling, automation, process, and leadership. What does stretched really look like? What gets dropped?

Moderator: Salpi Stojan, Cybersecurity Project Manager, Vivicta (Czech Republic)

Panellists: Brian Brackenborough, CISO (UK); Toks Oladuti, Global CISO, Dentons (UK); Jason O'Hare, Northern Europe CISO, L'Oréal; John White, Field CISO EMEA, Torq Technologies; Adam Drabik CISO SKF (UK)

NEW! Benchmarking Group Pulse Check:
CISO 360 AI Trust and Governance in Security Boards are asking CISOs to sign off on AI-powered security tools but most vendors can't explain how their models work, what they were trained on, or how accuracy is validated. AI integrity frameworks, procurement standards, governance accountability to address the gap that's emerging fast across every vertical.
Agentic AI, and who actually governs the agents

NEW! CISO 360 Circle:
Meet Your Mentor-Mentee. Be Both.
Everybody teaches. Everybody learns. Everybody has something worth sharing! You may be the most experienced voice in the room on AI governance or OT security, while simultaneously looking for a peer who has already solved a board reporting challenge you are just beginning to face. Seniority is not the measure here, experience in a specific area is.
Mentor - What's one lesson you wish somebody had taught you earlier?
Mentee - What challenge are you wrestling with right now?
Hosted by: CISO 360 Circle. Powered by Pulse
Moderators: Tom Berry, Board Advisor, NED, BeLessBeige
Deborah Saffer, Director Information Security, Liberty International Insurance, Martyn Booth, CISO, Former dunnhumby;
Paul Colnan, CISO & Director of Platform Engineering, NewDay
Mentor-Mentee areas will be pre-matched. The aim: to create a human recommendation engine. Please note these slots are only applicable to CISOs and cybersecurity practitioners who are doing the job of securing the organisation they currently work for.

13:25 Lunch on the Lawn

14:05 **Fireside Chat & Open Discussion:** 'Talk to the Board' - Board Engagement After High-Profile Cyber Attacks
The board relationship is the central professional tension for many CISOs in the room. A CISO will share what works, a Director talks about the gap between what CISOs present and what boards actually hear and how to communicate more effectively. A look past the headlines to dissect the true evolution of executive oversight. Have boards moved beyond reactive panic toward a sophisticated understanding of fiduciary liability and digital resilience when it comes to cyber?
Moderator: Prof Dr. Robert Coles, Chair, Audit and Risk Assurance Committee, University of Brighton
With: Chris Gunner, vCISO, Thrive; Philip, Intel 471, Marcin Roth, Senior Information Security Manager, Currys PLC - iD Mobile; Simon Riggs, CISO, OneAdvanced

10th Anniversary
CISO 360
GLOBAL CONGRESS

A Decade of CISO 360:
Connecting Security Leaders
24-26 June 2026
Palácio Estoril | Lisbon | Portugal

VENUE INFORMATION

A TIMELESS HISTORICAL OASIS OF ESTORIL, ONLY A 30-MINUTE DRIVE FROM LISBON CENTRE

Palácio Estoril
R. Particular 2769-504 Estoril
Lisbon | Portugal

On the sunlit Cascais coast, just outside Lisbon, the Palácio Estoril offers nearly a century of elegance, discretion and quiet significance. Estoril is no ordinary setting. Befittingly, during WWII, the hotel became a neutral crossroads for intelligence networks - with Allied agents based at the Palácio while rival operatives occupied nearby hotels. In 1968, James Bond stayed here during the filming of *On Her Majesty's Secret Service*, where **reality and legend** briefly converged.

A decade of practitioner-led trust deserves a venue defined by discretion, strategy and global perspective. A place where history was shaped quietly behind closed doors.

Ten years on, we gather somewhere worthy of the milestone 10th CISO 360 Global Congress.

A CISO problem shared is a CISO problem halved

*"CISO 360 Global Congress is **the** congress for CISOs and senior cybersecurity practitioners to attend. The scope of topics presented is excellent!"*

CISO, DPO and Director of the Internal Control Office, Comissao do Mercado de Valores Mobiliarios, Portugal

"Refreshing views of security topics for knowledge improvement!"

CISO, Bank Credibom (Portugal)

"The people are amazing. CISO 360 gathers the best of the best – the organisations that came here, the speakers are fantastic, the vendors that we can speak to about the products are great. It's really hard to say no to the Pulse team. I absolutely love them. The talks have been fantastic and piqued my interest. The most interesting contact has been about management, case studies, third-party risk, and AI. The camaraderie that is achieved through the social networking events is fantastic. We went out on the catamaran and, to be honest, I thought I was going to be sick, mainly because of the boat, but it was still so good. Afterwards the meal was fantastic. These are the smallest things that Pulse do for individuals such as myself that they don't need to do, but they go out of their way just to make us feel comfortable, especially in a new city as well I've never been to before, so massive thanks for that."

Ibraheem Khan, VP Information Security EMEA, at a financial services firm

"It seemed like everything was perfectly set to ensure a smooth event gathering 100+ valued guests. Loved the energy, the talks, the stands and also the choice of networking activities!"

CISO, Engie (France)

"One of the few must-not-miss events for every CISO. Wonderful opportunity to learn new things, and have in-depth discussions on what really matters, with real practitioners and industry legends (still alive)."

CISO & DPO, 360 Treasury Systems AG, Germany

"It is hard to describe what an amazing experience it was to attend, in person, a conference after such a long time. From impeccable and reassuring preconference comms to a beautiful indoor and outdoor setting, excellent speakers and audience engagement, surprisingly unobtrusive vendors where productive conversations were held, without all the sales hype. It will certainly be a conference I will not forget and setting a standard with which, I will hold other conferences to."

Global Deputy CISO, Cushman & Wakefield

"CISO 360 is the perfect balance between working, socialising, and networking. So the appealing thing about coming here is you get to meet a load of people that you wouldn't normally get in front of, so there's some smaller vendors who if you Google certain area they're probably not going to come up in the first page and you get to meet them and they get to tell you about their interesting new take on the technology, and you get to do it in a really nice setting, it's a lovely hotel, the events that Pulse put on outside of the hotel are really good, where you get to socialise with people and after a couple of drinks they kind of tell you a bit more truthfully what their products can do which is really, really useful. And then you get to do the follow-on, the boring stuff where they take you through a slide deck in London afterwards, so you get to meet them properly first, and then learn about the bump that they've got from their sales team afterwards so that's really cool."
